

SUN BEAMS

by WALTER M. BARRETT

It's not so easy to get away with killing a fawn or a doe as it might appear. There are usually enough good sportsmen in the woods to report such despicable sportsmanship and with the watchfulness of Game Warden LaMarr, who spends nights and days in the woods, it is difficult as will attest the young man who is paying a \$100 fine for a fawn in his possession.

Through the cooperation of the various Truckee organizations, assurance has been given that the new respirator for the district will be purchased in the near future. The purchase is being sponsored by the Truckee Volunteer Fire Department and is worthy of support.

Remember that unless you are properly registered before September 26—a week from today—you cannot vote at the general election on November 5. If you voted at the primary or general election in 1938 and have not changed your precinct and wish to retain your present party affiliation, you need not re-register. Otherwise it is necessary to do so before next Thursday.

Drivers should be warned with the wet weather that highways are no longer as safe as during the dry season. A sudden skid on a wet curve and a fatality might result. This may be prevented with just a little more caution and courtesy. At least it's worth the effort.

Lots of credit is due those who are spending their spare time in working on the Winter Sports hill, preparing it for the coming season of winter sports. While a considerable sum of money has been collected for the promotion of the program, there is not sufficient to pay for the labor required and at the same time to purchase the desired facilities. Volunteers are attempting to make both possible.

GRASS VALLEY MAN FINED FOR KILLING OF DOE; PAYS \$10 A WEEK

For the next ten months C. E. Edwards, a body and fender workman of Grass Valley, will be remitting \$10 a month to Justice of the Peace C. E. Smith who Tuesday assessed the man \$100 for having a fawn in his possession.

Edwards was arrested near Boca after he was accused of killing the small doe near Verdi Peak. Game Warden William LaMarr said he stopped Edwards' car and questioned him about his license and deer. Edwards, the officer said, denied he had any venison in the car and the warden requested him to open the trunk. This revealed the small body wrapped in a burlap bag under two blankets. The head and feet had been removed.

Edwards then claimed that he had found the fawn and was taking it to a Grass Valley game warden. The improbable story did not impress either LaMarr or Judge Smith.

NEARLY \$40 REALIZED FROM RED CROSS JARS

Mrs. Clara Hayes, who last week emptied most of the Red Cross contribution bottles in the stores of Truckee, reported that \$39.36 has been added to the war relief fund by this medium.

The bottles were emptied a month ago and a similar sum was realized.

REBEKAH PRESIDENT TO VISIT LOCAL LODGE

Ada J. Mattson, president of the Rebekah Assembly, will visit Naomi Rebekah Lodge No. 2 here officially on Tuesday evening, September 24.

She will be accompanied by Annie A. Catlett, grand warden, and Rena Trimble, grand conductor, Rae Zeatooney, past-president of Nevada, and other grand officers and members from Nevada will attend.

Local Fugitive Still Sought As False Leads are Given

Despite continued efforts of local officers and those in surrounding towns and cities, no trace has been found of the red-headed man in the dark green trousers who last Wednesday attempted a criminal attack upon a five-year-old Truckee girl.

Deputy Sheriff N. F. Doley, accompanied the girl and her father to Sacramento last week to attempt to identify an ex-convict held there by capital police. Numerous hitchhikers and suspicious appearing characters were stopped and questioned.

Peter B. Kyne To Speak Here Monday Night

Rotary Club Will Be Host to Eminent Author At Gathering

LIONS ARE INVITED

Preparations Being Made For Large Crowd to Hear Speaker

Peter B. Kyne, the eminent author whose books Cappy Ricks and The Green Pea Pirates and many others have been widely read, will be a guest speaker at the meeting of the Truckee Rotary Club here Monday night. Charles B. Cross will be the program chairman.

Members of the Truckee Lions Club have been invited to join with the Rotarians for the evening to enjoy the talk by the prominent author.

The Rotary members Monday were entertained by Harry A. Warden of Reno, president of the Pacific Luminous Products Co., manufacturers of Nevada-Glo, a new luminous substance which is expected to create a large market. The material is used for decorative purposes principally. The speaker brought some of the substance to illustrate his talk. Ben F. Lewis was program chairman.

Next Monday's meeting, which will be held at the California Cafe, is expected to attract approximately 80 members and guests. President Theodore Schleuter will preside.

NEW LICENSE EXAM SCHEDULE IS SET BY PATROLMAN McCANN

State Patrolman Ellis McCann has announced that a new schedule for examining applicants for driver's licenses has gone into effect. In the future applicants will be examined between 10 A. M. and noon each Monday. Examinations are given at the highway patrol station west of Truckee.

THREE TRUCKEE MEN ESCAPE IN ACCIDENT

Three Truckee men escaped serious injury when the large new coupe driven by Robert Huston left the highway just east of Verdi Tuesday night and overturned. Huston and Tony Pace escaped with bruises and shock and Gale Maken suffered a broken rib. All were treated by Dr. J. H. Bernard.

The three men were returning from a business meeting in Reno when the mishap occurred.

State Deficiency Cut Down From That of Month Ago

SACRAMENTO, Sept. 19.—(U.P.)—Increased revenues and curtailed expenditures during August helped to bring the state's cash deficiency from \$80,623,654 a month ago to \$63,814,572, a drop of \$16,809,082, State Controller Harry B. Riley reported this week.

The deficiency, however, still exceeds the corresponding figure of \$42,667,183 a year ago by \$21,147,389.

State Vehicles Chief Urges Caution in Night Driving

SACRAMENTO, Sept. 19.—(U.P.)—"When the sun goes down—caution should go up," is the plea of James M. Carter, director of the department of motor vehicles sent out to California's motoring public today.

Night accidents, he said, have shown an increase of 88.2 per cent in the last 10 years, and the need for greater care and caution after sundown is becoming increasingly apparent.

"Safe night driving is largely a matter of adjusting speed to visibility and motorists must learn not to over-drive their headlights."

Before and After
Before life became such a complex problem, men used to worry over the hereafter.

PYTHIAN SISTERS TO HAVE PROGRAM FOR VISITING STATE CHIEF

A fitting program is being arranged by the officers and members of Summit Temple No. 79, Pythian Sisters, for the district convention to be held at Odd Fellows hall in Truckee on Saturday, September 28. Grand Chief Edna A. Smith of Covina will be the honored guest.

The program will open at 1:30 P. M. with the presentation of the Flag, singing of God Bless America and the Lord's Prayer. This will be followed by the introduction of the grand chief and the address of welcome by Mrs. Laura Gaiennie, most excellent chief. The response will be by Mrs. Charles Heller, district deputy grand chief. Taking of the password, calling the roll of convention officers and the exemplification of the work of the lodge will follow.

Frank Gaiennie will talk on the Pythian Home and W. M. Englehart, Sr., will discuss fraternalism.

The principal address of the afternoon will be given by Mrs. Smith.

At 6:30 a banquet will be held at Tony's Coffee Shop and all planning to attend are asked to make reservations there.

A regular lodge meeting will be held in the evening during which two candidates will receive the initiatory degree.

600 Boy Scouts To Make Pilgrimage To Donner Lake Over Coming Week End

About 600 Boy Scouts from four councils will take part in a pilgrimage to Donner Lake September 28 and 29, Scout Executive Edgar A. Williams of Auburn announced this week.

The affair is the first of its kind to be attempted in this region. It will be styled after pilgrimages to historic points of interest in other parts of the country.

According to tentative plans, the scouts will camp on the lakeshore on the evening of September 28 near the spot where the Donner-Reed Party spent its fatal winter. The boys will camp by troops, each patrol making its own cooking and sleeping arrangements. The evening will be spent around a huge fire where the story of the pioneer party will be related.

Sunday morning separate church services will be held for the boys.

Tahoe forestry officials will take the boys in groups on nature hikes through the surrounding country. This event expected to be the largest single gathering of scouts ever held in the council, Williams said.

TRUCKEE BOY LOOSES FINGER WHILE AT PLAY

Earl Harris, 6, son of Mr. and Mrs. E. G. Harris lost the forefinger of his left hand while playing with another boy near his home here. The boys raised the handle of a railroad switch and Earl's finger was cut off when it was lowered.

Paul G. Ullrich Again to Head County Republicans

Paul G. Ullrich of Chicago Park was renamed chairman of the Republican county central committee at the organization meeting of the group held last week. Walter Barrett, the Truckee member of the committee, was not in attendance.

The G.O.P. body met Tuesday in Nevada City to discuss the current campaign and to map plans for the vote canvass on November 5th.

Woodland Beer Parlor Is Suspended For Phoney Food

WOODLAND, Sept. 19.—(U.P.)—A customer in Snavely's beer parlor of Woodland would have been surprised to have bitten into a cheese sandwich and found it was made of plaster of Paris.

That's what the board of equalization figured in suspending the liquor license for 10 days with a reprimand for not conducting a bona fide eating place. The refrigerator was crammed full of plaster of Paris food usually displayed in show windows to imitate appetizing cheese, liverwurst, milk, mayonnaise and other edibles.

Yuba Hunter Is Safe After Long Hike To Station

School Teacher Returns Safe To Forest Service Station

SUFFERED EXHAUSTION

Auburn Man Shoots Self In Hanging Gun In Camp

Nearly exhausted, hungry and with his clothes in rags, John Dowers, 28, Yuba County school teacher, wandered out of the wilds of the headwaters of the American River where he was lost for two days and was given refuge at the Robertson Flat Forest Service guard station this morning.

Dowers was lost in a fog early Tuesday morning while hunting with two companions. When he failed to return to camp his friends became alarmed and a search was organized. Six Truckee foresters joined 16 from various other stations and eight woodsmen volunteers for the hunt.

Dowers became lost three miles southeast of The Cedars. He wandered into the American River canyon and walked for nearly 30 miles before he crossed a marked forest service trail which led him to Robertson Flat. There Guard Henry Bucknell gave him food and he rested awaiting the arrival of his wife to return home.

A party of four others, whose names were not learned, returned to their camp last night unaware that a search had been launched for them.

SHOOTSELF

Another near-tragedy of the deer hunting season occurred on Tuesday night when an Auburn man, whose name was not reported, suffered a serious gunshot wound in his right leg. He was attempting to hang his rifle, a heavy calibre gun, on a tree in camp near the Little Truckee when the bullet exploded sending the shot downward through his leg. After first aid was rendered by Dr. J. H. Bernard, he was rushed to the hospital in Auburn.

TRUCKEE ARTIST DOES MURALS IN CHURCH IN NEVADA COMMUNITY

Philip Jolly, local artist, has completed work on twelve murals that decorate St. Augustine's Church at Austin, Nevada.

The paintings portray, in the main, Gospel themes.

For the Resurrection and St. Cecilia murals the artist donated labor and materials.

RANGE SURVEY TO BE MADE IN THIS AREA

A range survey being made by a party of five, headed by Elmo Brough, will arrive soon to determine the number of cattle and sheep to be grazed in this section of the Tahoe National Forest.

The plan is principally to establish the proper season of use for each range, carrying capacity, proper class of stock, range improvements required in the distribution of stock and method of handling. Their investigations thus far have shown portions of some ranges to be greatly overgrazed while other portions of the same range have had little use.

According to authorities in the matter the range is in general good condition and there has been more forage this year for a number of years past.

Sparks Railroader Retires After 46 Years in Service

SPARKS, Sept. 19.—Announcement was made here of the retirement of Charles A. Fogus from Southern Pacific service after 46 years of railroading. He formerly was district road foreman of engines in this state. He started railroad work with the S. P. in Wadsworth in 1894 and rode the streamliner City of San Francisco as instructor since its trial trip four years ago.

WYETHIA CLUB HAS FIRST FALL MEETING SLATED FOR TONIGHT

The first regular fall meeting of the Wyethia Club will be held this evening at 8 o'clock. Program chairman for the evening will be Mrs. Humbert Ciardella and Mrs. W. M. Englehart. Sr. Tea hostesses will be Mrs. C. J. Bowers and Mrs. Raitt S. Boren. The meeting will be in the Wyethia club house on Riverside Drive.

The club held a special meeting on the evening of September 11 in honor of Mrs. M. Stolp, chairman of music for the state federation of women's clubs. Mrs. Stolp spoke on her travels in the United States and Europe. Her objective in travel was to collect folk songs from various nations and to take vocal lessons in Italy. She told of the part that folk music played in history.

At the end of her talk, she played a number of American folk songs typical of their locale. Tea hostesses included all the officers of the Wyethia Club, Mesdames James Garibaldi, Elden Tonini, Yell Nobles, V. L. Deaton, Clair P. Goode and Gene Barton.

Truckee Lions Urge Halt To Useless Waste in Tree Harvest Incurred Annually

Realizing the importance of conserving the fast vanishing forests of the High Sierra watershed, the Truckee Lions Club last night went on record as favoring a project to appeal to the powers that be to put a halt to the wanton waste incurred each year in the harvest of Christmas trees.

A committee was named by President Bill Englehart, Jr., to confer with other service groups throughout the effected area in enlisting aid in the work.

The Lions will not have a meeting next Wednesday but will meet with the Rotary Club Monday night at the California Cafe to hear Peter B. Kyne noted author, who will be a guest speaker of the Rotary Club.

WINTER SPORTS WORK PROGRESSES RAPIDLY AS VOLUNTEERS HELP

Work is going ahead at a rapid rate in preparing the Winter Sports hill south of Truckee for the approaching snow season.

A large caterpillar, provided by County Supervisor Alex Robertson, with the driver and gasoline being paid from the funds of the Truckee Outing Club, is being employed in clearing the debris, brush and dead trees from the site.

Volunteers from the Outing Club are spending Sundays aligning the hill for the installation of the up-ski construction which may be started in the near future.

Dan Smith, who, with Mrs. William Johnson, has collected the funds to be used in promoting Winter Sports, reported at a special meeting of the club last Thursday that \$950 had been subscribed with many more yet to be contacted. This sum does not include the \$1000 in equipment to be donated by the Truckee Public Utility District.

Robert Siebold, Earl Edmunds and Robert Bowers have been designated to represent the Outing Club at a meeting of the California Ski Association in Yosemite next month.

Truckee to Almanor Route Extolled by Association

The very attractive mountain trip between Truckee and Lake Almanor has been extensively improved this season according to the National Automobile Club. Construction, oiling and surfacing has been completed between Calpine and Clio and between Keddie and Chester.

Norden Ticket Agent Is Transferred to Woodland

F. M. Rector, who has been first truck operator and ticket agent at Norden, has been transferred to Woodland where he will take a similar position with the Southern Pacific. The Rector family, however, are not residing in that city.

Scores Of Deer Killed Opening Day In District

Lyle Smith Returns with First Buck; Schumacher Was Second

LARGEST SCALED 240

Inclement Weather Fails To Dampen Spirits Of Hunters

To Lyle Smith, Truckee electrical contractor, goes the honor of bringing in the first buck of the season here. Smith brought his buck down near Bald Mountain and was back in Truckee before 7 A. M.

A few minutes later, Oscar Schumacher returned from the Donner Lake district with his buck, a large four-pointer.

George "Bud" Zorich was probably the most fortunate hunter of the opening day when he drove a couple of miles south of Truckee on the Brockway road and landed one of three bucks strolling in the meadow. It weighed 180 pounds.

Elvin E. Hoff of Sacramento is credited with the largest animal thus far during the season. He brought his deer in from Sardine Valley and it weighed 240 pounds dressed.

Scores of deer have been killed throughout the district, many close around Truckee but for the most part in the Sardine Valley and Sierra Valley regions. Wet weather failed to discourage the hunters and camps remained intact throughout the mountains as the nimrods stayed to land their bucks.

One hunter, whose name was not divulged, returned to Truckee Sunday night, the day before the opening of the season to report he had walked miles without getting a shot. There were few, however, who failed to observe the law, Warden William LaMarr reported.

LIGHT VOTE ELECTS THREE CANDIDATES TO SANITARY BOARD

Only 28 residents of the Truckee Sanitary District turned out Monday to vote for the three unopposed candidates who were elected.

The new member on the board is Joe Mattos who replaced H. I. Snider. Snider was not a candidate for reelection. G. E. Hofmann and George Pace were the incumbents renamed on the board by the electors.

Frank Gaiennie and Clair P. Goode comprise the balance of the board.

RETIRED RANCHER IS HARDY SOUL AT 79

J. Allison Kline, 79, became tired of the hum-drum existence of retirement from a big cattle ranch in Tensleep, Wyo., so he purchased himself a large new coupe and set out on a tour of the west.

All went exceedingly well until he started home and encountered trouble on Donner Summit Saturday. Misjudgment or faulty mechanical equipment sent the car hurtling into the rocks just east of the summit. The aged driver, alone in the car, suffered two broken ribs, severe lacerations of the face and shock.

He was removed to the Riverside Hotel after refusing hospitalization and was treated by Dr. J. H. Bernard. His son in Wyoming was notified and came to Truckee. In the meantime Kline declined to remain an invalid and buckling on his six shooter which he said he had worn since he was ten years old, went out to inspect his demolished car and visit the town.

Traffic Officer Ellis McCann investigated the wreck.

.78 Of An Inch Of Rain Has Fallen In New Storm

District Forest Ranger H. I. Snider reported this morning that .78 of an inch of rain fell in Truckee during the current storm. The storm was accompanied by some lightning. Snow fell above the 9000-foot level, he said.

EDITORIALS

A GOOD INVESTMENT

The value of newspaper advertising has been attested again and again. We wish to bring to your attention once again the fact that the leading industries continue to use newspaper advertising in preference to more expensive and less trustworthy competition.

In a recent letter to Neal Van Sooy, president of the California Newspaper Publishers' Association, A. D. McDonald, president of Southern Pacific Company, the West's largest railroad and one of the nation's heaviest advertisers, said:

"We have found the newspapers most cooperative and have always considered as a good investment the large sums we spend annually on newspaper advertising space."

Newspaper advertising has been the heart of the life-stream of American business and industry. Newspaper advertising continues to be the most valuable medium of selling, dollar spent for dollars returned, that a businessman can invest in.

MASS-MINDED

If you do not follow the big crowd these days you're apt to be called an "appeaser", which is a synonym for the first World War phrase "pacifist". This is the danger in our nation today.

Most people like to keep in step with public opinion even though they have to follow with the sheep. In Washington and throughout the country mass-mindedness is doing a lot of amage. But "appeasers", and "pacifists" usually have constructive conversation to back up their opinions, for the very good reason that they do their own thinking. When a nation lets one man do most of the thinking and planning then that nation becomes an intellectual goose-stepper. That's the main trouble with Germany. In short, God was good enough to give us each a brain and we ought to use it in genuine efforts to reach sound conclusions regarding all public questions.

OF PEANUT POLITICS

Whether it be the voice of sincere conviction or whether it is nothing but the timid voice of the weaker side, it is practically the unanimous voice of the New Dealers which characterize the Willkie joint debate challenge as peanut politics. If this be peanut politics, it is a grievous offense, and most grievously the offender may be called upon to answer it. Perhaps the evil derives from those outstanding peanut politicians of the antebellum era, Stephen A. Douglas and Abraham Lincoln. They staged a series of joint debates which made American history and will ring like a trumpet call in the annals of their country. Maybe they were playing peanut politics, those giants of the Sangamon country, but neither of them ever chose as proxies a Harold Ickes to discuss economics in his stead or a Boss Flynn to discourse upon political morals.—Daily Oklahoman, Oklahoma City, Okla.

PATRIOTS STAND TRIAL

Fallen France, following the tragedy of defeat and conquest, now prepares to stage a farce to redeem its "honor." Three leaders of "old" France—former Premiers Daladier and Reynaud and Generalissimo Gamelin—have been taken into custody, branded as persons dangerous to the national defense and public safety, and placed under guard in a moated castle in southern France.

Not the people, but the puppet government at Vichy headed by infirm Marshal Petain, has instigated the trials, partly, it is believed, to curry favor with the Nazi conquerors, partly to provide scapegoats for the French High Command whose leadership in those last fateful weeks in May and June has been termed a marvel of blundering ineptitude. Doubtless like the famous Moscow trials, the prosecution of these unfortunate scapegoats will follow the typical cut-and-dried pattern of "fixed" trials where guilt has been pre-judged, and the observance of formal procedure is little more than a mockery.

The puppets at Vichy would never dare, of course, bring to trial the real spies, saboteurs and enemies of France. Hence, the patriots must stand trial instead. Even tragedy has its farcical moments, but a farce such as this will bring no laughter anywhere, save, perhaps, in Berlin.

If business isn't up to par, try advertising. It gets results.

Our Nation's Safety

The Constitution of the United States gives Congress the power to raise and support armies, and designates the President as Commander in Chief.

The Army is divided into three main sections. The Regular Army, the National Guard and the Organized Reserves. Under the President, the Secretary of War is responsible for running the Army. Under him is the Assistant Secretary of War, responsible for getting the military supplies for the Army, and for adequate provision for mobilizing materials and industrial organizations essential to wartime needs. It is the blueprint and general outlines laid down by the Assistant Secretary of War over a period of years that form the basis of what are known as War Plans. To facilitate the carrying out of these plans, the President appointed the National Defense Advisory Commission.

THE GENERAL STAFF

The soldier head of the Army is the Chief of Staff. He is responsible for planning, developing, and executing the Army's program for national defense. He has to train a million new men, to make an army of them. There are five Divisions under the Chief of Staff, each responsible for a separate function.

The Personnel Division takes care of the fighting men of the Army. It enlists, classifies, assigns, promotes, pays, transfers, retires, and discharges. It is responsible for making the best use of our manpower. The Military Intelligence Division is responsible for furnishing all kinds of

military information.

The Operations and Training Division handles the training of men from the time they join till they are ready for duty, and beyond that carries out the vocational and educational work to fit men for new duties and new techniques.

The Supply Division provides for all equipment, buildings, storage, transportation, and distribution of supplies, care of the sick, and for keeping track of army equipment.

The War Plans Division is responsible for the use of our armed forces in war, the location of fortifications, and for the general strategy of defense.

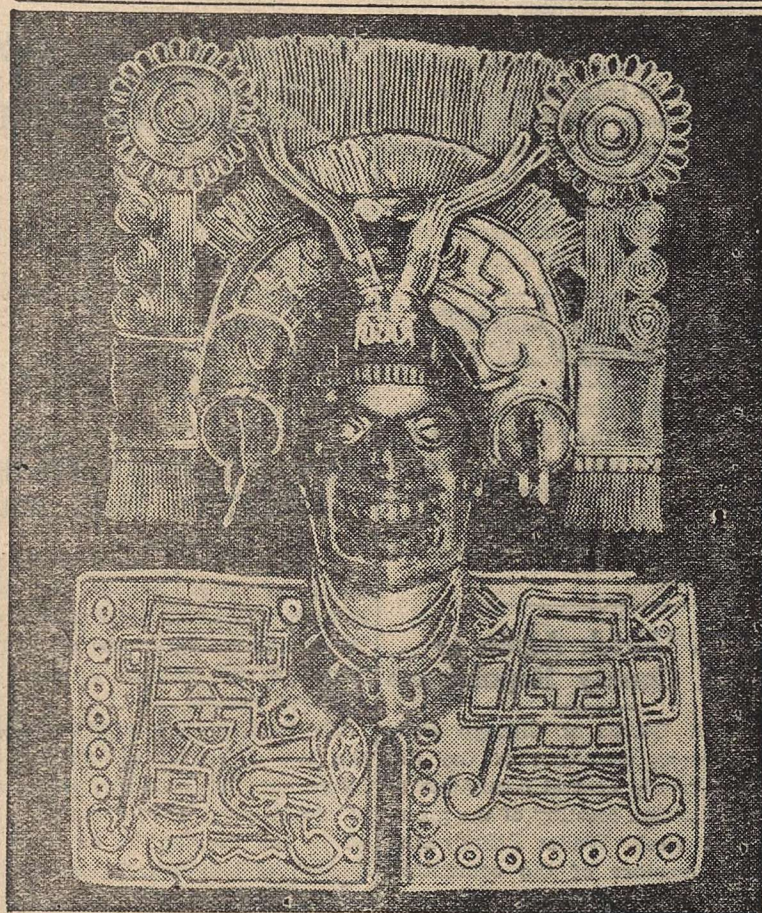

Directly under the Chief of Staff comes the Regular Army, which is the full-time professional part of our land forces. It is always ready, at the drop of a bomb, to go into action as the spearhead of our initial protective force. It is designed to be augmented by the Organized Reserve and the National Guard in time of need. Together these forces make up our initial protective force. This force, with the Navy, would act to defend the nation while we prepare additional units needed for subsequent action.

The success of this plan depends on equipment for the initial protective force, and having material ready at once for additional forces. That is why the President has asked for the additional material for 800,000 men over the standing Army of 1,200,000 he requested.

THE FIGHTING ARMS

The arms, the fighting units of our Army, are the Infantry, Cavalry,

Traveling Around America

GOLD FACE

BEHIND this mask of exquisitely wrought gold many a chieftain in Cuzco celebrated Inca fiestas. Cuzco featured in fortnightly cruises to the Land of the Incas—was the capital of the fabulously wealthy Indian Empire which flourished for four centuries after its founding in 1100 A. D. in the highlands of South America. In those days, gold, copper and silver were the most commonly used metals—with gold taking the lead because it was so easy to work and so beautiful to look at, and so appropriate for honoring the Sun, whom the Indians worshipped.

From solid gold were fashioned the dishes and bric-a-brac for the Inca palaces, the sacred vessels for the Temple, and the thrones of the Inca and his coya, or queen. Gold was lavishly employed in the adornment of buildings. Around the

Temple was a cornice of pure gold three feet high. Its doors were of gold and its inner walls "papered" with gold leaf. In the place where the altar usually is, found, was a gigantic image of the Sun fashioned from pure gold—with rays covering the entire wall. Beside it the mummies of the deceased Incas were seated upon gold thrones. Outside the Temple was a gorgeous and most fantastic garden made entirely from gold and silver—flowers of gold with leaves of silver, trees made from the gleaming metals, gold benches, and the life size figures of animals and people exquisitely carved from gold. So lavishly were these precious metals used by the Incas that rumors seeped through to the outside world and lured the Spaniards southward to conquer and to pillage.

EDNA MAE STABE

Wee Bits Of Wisdom

—What is often called indolence is, in fact, the unconscious consciousness of incapacity.—H. C. Robinson.

—In six consecutive shifts 1776 yards of concrete were poured in the foundation of the Shasta Dam power house near Redding.

—Output of aircraft engines in the U. S. has reached approximately 2300 per month.

—They can conquer who believe they can.—Dryden.

—The Mare Island Navy Yard, at Vallejo, is now in the midst of an \$87,000,000 shipbuilding and development program.

—It really pays to advertise.

Field Artillery, Coast Artillery, Air Corps, Corps of Engineers and the Signal Corps. At the present time, the mechanized forces in the Cavalry, the Infantry and some Field Artillery have been transferred to a new armored force, just experimentally organized. If the force performs as expected, it may become a new fighting arm, including several armored divisions of the type of the now famous "Panzer" divisions of the German Army. These divisions, comprising about 10 per cent of the German Army, are what made the "Blitzkrieg" possible.

The Infantry is the main fighting part of the Army. In a battle the Infantry slugs it out with the enemy. In order to understand what the nation has to do, let us take John Smith, the average recruit, and see what happens to him when he joins the Army and see what we have to provide him with to make him a soldier.

John joins the Infantry today. He raises his right hand and takes the oath of allegiance, and by doing that, he sets in motion a long integrated chain of activities to supply him with the wherewithal to fight.

CLOTHING AN ARMY

First come clothes. Shoes, socks, pants, unreclothing, shirts, hats, helmets, blankets, tent, gas mask, trenching tool, reeve rations; in fact, everything that makes him a self-supporting man of war. 2,000,000 John Smiths need two million times as much material—and the proper material has to be ready as each John Smith raises his right hand.

In order to be sure that it is ready, the War Department breaks down these requirements into so many yards of wool cloth for pants, so many hides for shoes, so many tons of steel for trenching tools, hob nails, etc. Then the National Defense Advisory Commission goes to work.

It finds the cloth for the uniforms, which will have to be specially woven, but there are more than enough factories ready to do the job and deliver the goods before the men are ready for them. America's shoe suppliers are already at work on the shoes that won't bite the foot that fills them. The National Defense Advisory Commission tells the Army how the orders should be distributed to get the best and fastest results without interfering seriously with other necessary production, without causing transportation delays, and without causing local labor shortages. This job is not only done for today but for next week and next year, so that the whole process can run smoothly while we ready two million men for arms.

This means that the Defense Commission must look behind the manufacturer who supplies, let us say the blankets, and see that he is assured of an adequate wool supply, and that the manufacturers of looms have enough replacement parts on hand so that repairs can be made at once, that there are enough dyes to produce regulation olive drab, so that there will be no breakdown in the whole long chain.

That is all merely the first step necessary to see that John has the proper equipment to exist as a soldier. But a man can't fight without weapons. And that is the next step—to provide the Army with the tools of its trade.

HARRY COMSTOCK TO HEAD ASSOCIATION IN ENSUING YEAR OF '41

LAKE TAHOE, Sept. 19—Harry Comstock again will head the Lake Tahoe-Sierra Association as president. He was re-elected, along with other officers, at the meeting held Wednesday, September 11, in the Lake Valley Community Club.

The others chosen include: Vice presidents, Al Richardson, George Kehlet, and Mrs. Harriet Craven; treasurer, Dave Chambers; and secretary Henry F. Droste.

Arthur Dudley, secretary-manager of the Sacramento Chamber of Commerce, pledged the continued support of his organization in the Sierra association's publicity program. Another speaker was Wallace Ripley of the El Dorado Chamber of Commerce.

Winter schedule at Lake Tahoe has been adopted by Fontana's Laundry, Al Fontana, proprietor, announced this week. The trucks will call for and deliver laundry on Tuesdays and Fridays as in the past during the fall and winter months. It is the desire of the proprietor to maintain the same fast service, as near as is possible, that is accorded during the peak of the season.

TAHOE SKI CLUB'S DANCE IS HERALDED AS HUGE SUCCESS

by I. M. EDWARDS
(Special Sierra Sun Correspondent)

One of the most successful dances ever to be given by the Lake Tahoe Ski Club was held last Saturday night, Sept. 14, at the Community Center for the purpose of adding to their newly-started building fund. The hall was gaily decorated in red, white and blue. A special feature of the dance was a fine orchestra composed of Mr. and Mrs. T. S. Jones of Reno who made up in rhythm and melody what they may have lacked in numbers. The geniality and enthusiasm of the hostess, Mrs. Sam Goss, did much toward making each one feel a part of the evening's festivities.

Much amusement was afforded by the awarding of 15 prizes for various kinds of dancing. Married couples prize waltz was won by Mr. and Mrs. Joe Henry of Tahoe City. The prize was a handsome enameled "Captain" chair, upholstered in green, which was donated by Sam Goss of the Tahoe Awning Company. The prize for plucking the tail on the donkey was won by Miss Margaret Miller and Billy Bechdolt.

Much interest was centered around the drawing of the winning number for the beautiful hand-made quilt made and donated by Mrs. Goss. Mr. and Mrs. Floyd Carnell were the lucky winners.

Tasty refreshments were served during the evening, part of which were donated by Mr. and Mrs. Frank Nease of Tahoe City. Donations were also made by Mr. and Mrs. Carl Donnell of San Francisco. Home-made candy was donated by Helen Worden, Mary Jane Soll and Edna Wheat.

Everyone voted the dance to be a grand success and is already looking forward to the next one.

Much credit should be given to Mrs. Goss for her untiring efforts in making all arrangements and securing the orchestra and all the donations for the dance. The ski club wishes to thank everyone who helped in any way towards the success of the evening.

Aged San Franciscan Hurt In Truckee Road Accident

TAHOE CITY, Sept. 19—E. J. Owens, 79-year-old resident of San Francisco suffered severe back injuries in an accident on the Truckee River road here on Monday afternoon when a car driven by his son-in-law J. Wickens of San Francisco turned over and went over the bank. Mrs. Wickens and her daughter, who were also in the car, were unhurt as was the driver.

The family was occupying a home along the Truckee River where they were vacationing.

Sunday school will be held all winter with Mrs. Tejas Edwards as superintendent. Sessions are at 10 A. M. at Community Center.

Mr. and Mrs. Eddie Martinez of Reno, with their son, Laddie, left for their Nevada home Tuesday after spending the summer on Lake Street, Tahoe City.

TO OUR TAHOE READERS—

The Sierra Sun invites you to communicate with Mrs. Anne B. Anderson at Tahoe City or The Sierra Sun, Drawer G, Truckee, if you have items of interest for the Lake Tahoe Region. Your interest in your community is of interest to your paper.

SCHOOL HEADS HOLD CONCLAVE AT TAHOE OVER LAST WEEK-END

TAHOE CITY, Sept. 19—Seventy-five members of the Northern California District of County School Supervisors met at Chambers' Lodge over the week-end. Placer county school officials, headed by County Superintendent Elwyn F. Gregory, were hosts to the group. Section meetings with group discussions were on the program on Monday which concluded the sessions.

Miss Myrta Freeman of Butte county presided at the Monday assembly. Speakers were Miss Helen Hefernan of the state department of education who spoke on Democracy in the Schools, Miss Lillian B. Hill also of the state department and Dr. Butler of the Sonoma Home.

Children of the Tahoe Lake elementary school presented a dramatization of an Indian legend about Lake Tahoe on Saturday night.

Children who took part in the performance were Rae Pyle, as the Indian maid who was narrated, Bob Schumacher and Barbara McCune as the Indian brave and maiden in the story and Paul White as the Ong, an Indian bird.

Attractive place cards for the Saturday night dinner were drawn and colored by the elementary school children picturing 70 species of wild birds native to the Tahoe region.

FOREST SERVICE MEN FIGHT THREE-DAY FIRE

TAHOE CITY, Sept. 19—A small fire on the Bear Trap Canyon trail to Watson Lake was being fought by Forest Service crews on Sunday, Monday and Tuesday after a fight by the men to confine the blaze to a small area by running a fire guard ditch around it.

Discovered by Forest Service men Sunday, the fire was in a canyon between two ridges and was inaccessible by truck and in a place impossible to get water to. The fire was deep in the timber, in the dry rotted logs and pine needle topping the forest loam. The crews succeeded in confining it to about an half-acre area. It was thought to have been caused by a careless smoker. Rangers were very happy that showers which fell on Monday assisted in extinguishing the blaze as well as reducing hazards from deer hunter fires.

Mr. and Mrs. J. O. Hursey and sons have arrived at Tahoe Pines for the winter months. They live in Truckee during the summer.

Thirteen-Year-Old First Hunter Into Tahoe City With Buck As Many Are Successful Monday

TAHOE CITY, Sept. 19—The first hunter into Tahoe City with a deer on Monday morning was thirteen-year-old Jimmy Swanson, youngest member of the Lake Tahoe Gun Club, who brought in a 185 pound forked horn buck from the Timberland Tract district about 6:30 A. M.

The lad, who made his kill before breakfasting close to his lakeshore home, had his deer dressed and in the ice box, with the help of his neighbor, Jim Ferguson, and was off to classes at Tahoe Branch of Placer Union High School by the 8:30 A. M. bus.

Jimmy's step-father, Charles Swanson, and Bob Wallace, highway maintenance foreman, went over into the back country to hunt their deer but

no word has come from them as yet regarding their success.

Second man in was Chris Boyarides of Tahoe Tavern who got a forked horn at Page Meadows weighing around 180 pounds.

Ernest Hoerder of the Pullman Diner was another successful deer hunter opening day. Fay Ellis and party brought home two fine bucks from the Ward Creek Canyon district.

Ernest Pomin's party came in with one 140 pound buck from Ward Creek Monday.

James Frazier got a 130 pound deer in the Ward Creek region and several hunters returned from the Hell Hole region with 150 pounders and better

TAHOE SCHOOL AFFAIRS

The opening of deer season caused a drop in attendance at the high school on Monday. Report cards were handed out last week.

Mrs. Myrtle Gallinger attended a meeting of the county board of education in Auburn on Saturday.

The regular fall nature excursion of the elementary school which is taken prior to the opening of deer season, was held last Friday morning when the students walked towards Bear Trap Canyon, bringing home specimens of wild flowers and native plants for their botany studies.

Little Robert Adam, who broke two bones in his wrist last Wednesday in a fall at school, is recovering nicely. Bernard Corrigan took the young lad to Auburn hospital where a splint was put on the injured member. He had almost bitten his lip through after the accident occurred in his determination not to cry.

Little Gene Ferguson of Sunnyside is convalescing at University of California hospital from a throat operation.

California Buys Toll Bridges

VALLEJO, Sept. 19 —(U.P.)—The State of California this week took over the Carquinez and Antioch toll bridges and immediately reduced tolls on the spans. The new rate is 30 cents with no additional charge for passengers. Previously the charge was 45 cents per car and five cents for each passenger.

Mr. and Mrs. C. W. Vernon of Tahoe City were Reno visitors on Tuesday.

Dr. C. B. Pedersen Feted On Occurrence of Birthday

TAHOE CITY, Sept. 19—Mrs. C. B. Pedersen of Casa Sierra entertained at a buffet luncheon on Sunday honoring the birthday of her husband, Dr. Christian B. Pedersen. Guests included Mr. and Mrs. Matt Green, Mr. and Mrs. Norman Mayfield, Mr. and Mrs. Joseph Murphy and son Leo of San Francisco, Mrs. Hazel Taylor and Mrs. Mabel Swain of Beverly Hills, Mr. and Mrs. Romey Miresault and Miss Miete Pedersen.

Tahoe folks are sorry to hear that Dr. Pedersen will be leaving the late on Friday as he has been appointed Major in the Medical Unit of the Surgeon Corps in the First Military Area. He will be stationed at the Presidio in San Francisco.

Mrs. Ernest Hoerdler, with her daughters, Patsy and Mary Anne, returned last week to their home in Covina where Mrs. Hoerdler will resume her duties as a teacher in the Los Angeles school system.

State Forest and Range Fires are Kept to A Third Of Those of Last Year

SACRAMENTO, Sept. 19—(U.P.)—The 1940 forest and range fire toll so far has been only about one-third of that of the comparative period of 1939, State Forester M. B. Pratt reported today.

As of September 1, 3214 fires this year have burned over 130,819 acres of land, causing damage estimated at \$126,036, Pratt said. In the same eight months of 1939, 3906 fires blackened 379,065 acres of land for damage of \$372,551.

None of the damage figures include cost of structures burned in forest or range blazes. The division of forestry estimated that timber property suffered only \$2,059 damage so far this year, ranges, \$24,024; hay and grain, \$20,088 and improvements, \$79,895.

Last year was considered a record fire year because of prolonged dry spells. In 1938, a more normal year, 363,355 acres were burned over by September 1 for a total damage of \$228,501.

Pratt said last month was a period of sub-normal fire danger, although there were brief periods when atmospheric conditions were unfavorable for fire control. However, in areas where rain usually falls during the month, the precipitation was 15 per cent above normal.

American Boy Is Companion To Thousands of Youths

Hundreds of thousands of boys and young men read THE AMERICAN BOY Magazine every month and consider it more as a living companion than as a magazine.

"It's as much a buddy to me as my neighborhood chum," writes one high school senior. "THE AMERICAN BOY seems to understand a boy's problems and considers them in such a sympathetic and helpful way. It gives advice and entertaining reading on every subject in which a young fellow is interested. It is particularly helpful in sports. I made our school basketball team because of playing tips I read in THE AMERICAN BOY."

Many famous athletes in all sports credit much of their success to helpful suggestions received from sports articles carried in THE AMERICAN BOY Magazine. Virtually every issue offers advice from a famous coach or player. Football, basketball, track, tennis, in fact every major sport is covered in fiction and fact articles.

Teachers, librarians, parents and leaders of boys' clubs also recommend THE AMERICAN BOY enthusiastically. They have found that as a general rule regular readers of THE AMERICAN BOY advance more rapidly and develop more worthwhile characteristics than do boys who do not read it.

Trained writers and artists, famous coaches and athletes, explorers, scientists and men successful in business and industry join with an experienced

Wendell Willkie to Parade All Over San Francisco Prior to Saturday Rally

When Wendell Willkie makes his personal appearance in San Francisco on Saturday, September 21, the Willkie Volunteers in Northern California are going to see to it that as many people as possible get a look at the G. O. P. nominee.

The non-partisan organization has been given the task of staging a two-hour parade with the candidate which will cover a wide-spread area in the bay city.

Starting from the Palace Hotel promptly at nine o'clock Saturday morning, the route will take the Republican nominee up Market street to Van Ness avenue, then through the Mission district, back to Market and over Fillmore street to Geary. Traversing the Richmond district to 19th avenue, then to Clement and back to Van Ness via Anguillo boulevard, California, Presidio, Post, Webster and Sutter streets, the caravan of 100 or more cars will go north on Van Ness to Bay street thence to Columbus avenue. Turning on to Grant avenue, the parade will go through the heart of Chinatown to Bush street and down to Market. At Harrison street and First, the Oakland caravan will meet the nominee and escort him to the eastbay cities.

NATION-WIDE BROADCAST
The Republican nominee will make a number of appearances in the San Francisco bay area, culminating in a gigantic rally on Saturday night at the Civic Auditorium in San Francisco. His address there will be broadcast over a nation-wide radio hookup.

TAHOE PERSONALS

Mr. and Mrs. Ben Stanley have leased the Fred Cowell home on Lake Street.

Mr. and Mrs. Louis Gerken of Sacramento spent the week-end at the home of the latter's parents, Mr. and Mrs. Henry Soll, of Pine Lodge at Rubicon.

Carl Becholt, Jr., is having a new home built on his Tahoe City property. N. R. Mayfield is the contractor.

Mrs. Faye K. Russell, county librarian of Palcer county, visited the Tahoe Branch Library and Tahoe Lake Elementary School on Monday.

It is my philosophy that there is no arbitrary division of American voters. We are all Americans.—New York City, Aug. 22, 1940.

TAHOE LABOR TEMPLE IS PROJECTED BY UNION

TAHOE CITY, Sept. 19—The Tahoe branch of the United Brotherhood of Carpenters and Joiners of America, Local Union 2035, has purchased three lots at Kings Beach about half a block off the highway and will build a new hall.

A dance was given by the group at Cal-Vada recently, a percentage of the proceeds going toward the building fund for the new hall. Members hope to be able to construct a hall large enough for social affairs, dances and meetings of the organization.

Tentative plans call for complete dining room and kitchen facilities.

Stork Shower Honors Tahoe Woman on Last Wednesday

TAHOE CITY, Sept. 19—Mrs. Stella Halverson of Lake Street gave a stork shower bridge luncheon in the form of a stork shower in honor of Mrs. Ella Howard on Wednesday. First prize at bridge was won by Mrs. Jack Bell and second went to Mrs. Bessie Chesson.

Other invited guests included Mrs. Maud Stanley, Mrs. Lillian Beauvais, Mrs. Catherine Heise, Mrs. Florence Hutchner, Mrs. Jack Malcolm and Mrs. A. J. Goggans.

For Hard of Hearing

CHECK FOR VALUE! CHOOSE A WESTINGHOUSE!

Politically Speaking

by JOHN W. DUNLAP
United Press Staff Correspondent

SACRAMENTO, Sept. 19. —(U.P.)— Politics always breeds rivalry and the impending contests for the state chairmanship of the Republican and Democratic parties promises to live up to advance expectations.

Bradford Melvin, San Francisco attorney, is the outgoing chief of the Republicans and Secretary of State Paul Peek heads the Democrats. Most of the shooting is expected in the GOP ranks, with the showdown set for Friday (Sept. 20) at the meeting of the state central committee, a day after the biennial party conventions in Sacramento.

REPUBLICAN CONTEST

By law, the chairmanship rotates from north to south every two years, so the new GOP chief will be from the southern counties. It would appear that the major rivals are Leo Anderson, chairman of the Los Angeles county central committee, and Assemblyman Lee Bashore, of Glendora, a national convention delegate and ardent supporter of Wendell Willkie, and Assemblyman Thomas Kuchel, just elected senator from Orange county, a dark horse not lively seeking the job.

According to the grapevines, the old-line regulars are behind Anderson.

Another group feels that it is time for a change in the party leadership, and would like to see someone like Bashore given a chance at the helm.

Then there is the legislative group, possibly a bit miffed at what it considers "step-child" treatment from the party machine. They think that practical politicians like themselves have too little to say about party policy and would like a legislator in the chair. Some of the lawmakers may not cater to Bashore personally, but would swing to his support in case of a show-down.

BASHORE AMBITIOUS

Bashore is somewhat new to party politics in Sacramento, having just completed his first two years in the assembly. He has ambitious ideas and

The Nazis Promise to Retaliate for All This

According to German censor's captions on these radio pictures, British bombs caused this damage to two Berlin institutions. Left shows interior of Catholic Hospital of St. Hedwig. At right, Nazi soldiers inspect damage to Jewish Old Folks Home. Germany promises to retaliate "a thousand fold" for such "outrages."

would welcome the chairmanship as a stepping stone.

If there is a split between the non-legislative adherents of Bashore and Anderson, the legislative group may swing sufficient votes to elect the Glendora assemblyman. There was much buttonholing at the special session of the legislature just called, in a desperate lineup for support.

Melvin is supposed to be backing Bashore or some other liberal Willkie man.

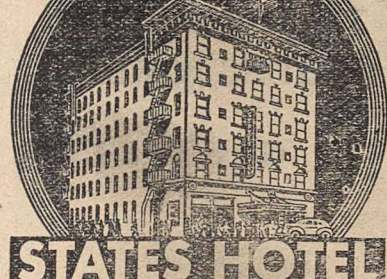

SPECIAL SESSION

There was some little confusion on the reason why Governor Olson jumped the gun on the legislature and called a special session on September 13 when a session was already scheduled for September 21. As Olson explains it, he had no choice.

The governor said SRA funds ran out on September 11. Both the legislative fact finding committee on relief and SRA officials understood that \$1,000,000,000 could be borrowed if necessary from the state emergency fund to tide over the relief expenditures until the date set by leaders of the legislature for the session.

When it came time to borrow the money, however, two hurdles balked the machinery. First, there was only \$450,000 in the emergency fund, which

Fair's Pre-Ice Age Bison

They came big back in the pre-ice age days! This is a prehistoric bison restored from skeleton found near Mt. Shasta in California, and now on exhibit in the University of California science exhibit in the Hall of Science at the Golden Gate International Exposition. The exhibit, sponsored by the California Commission for the Exposition, has been one of the great drawing cards on Treasure Island, attracting thousands of visitors of all ages. Some idea of the spread of horns of the mammoth beast is gained by comparison with the size of Miss Betty Reed of Billy Rose's Aquacade, Treasure Island hit show.

Olson did not want to deplete. Second, there was a constitutional maximum of \$300,000, beyond which the SRA could not go into debt.

So Olson had a huddle with the involved officials and everyone agreed there was nothing to do but telegraph the legislators to hurry to Sacramento.

It may have been in a blessing in

disguise for many of the members. They get mileage to and from their homes under a call made by the governor, would have received nothing for coming to the capitol under the recess call of their own leaders. The joker may be that all of the members expect to attend the party conventions and central committee session September 20 and 21, and are

State Chamber of Commerce Makes Ballot Recommendations on Proposed Constitution Changes

Recommendations of the California State Chamber of Commerce on propositions which will appear on the ballot at the general election on November 5th were made public this week by the chamber, following action by its board of directors. The group's recommendations on these measures are based on several months of study by its six regional councils, its statewide tax committee and by the board of directors.

The chamber's recommendations, and the reasons therefor, are as follows:

Propositions 1 and 2 (ACA 6 and ACA1) Release of Old Age Pension Liens. The state chamber recognizes that inequalities now exist in the treatment of persons who have received old age assistance from the state. However, neither the state nor any county has at any time had power to deprive old age assistance recipients of their property during their own lifetime. Release of liens and mortgages as proposed by these two amendments would benefit, not the needy aged, but their heirs and transferees of the property, amounting in some instances to a gift of over \$1,000. The state chamber believes that a more desirable solution to the problem of equity would be to provide a uniform system of liens in all cases. Recommendation: "No."

Proposition 6 (SCA 9) Judicial Review of Administrative Determinations. Because of existing doubt on the proper method and scope of court review of decisions by administrative boards, officers and commissions, the legislature should be authorized to make provision for orderly review and to define exact scope of such review, as provided by this amendment. Recommendation: "Yes."

FISH COMMISSION PROPOSAL
Proposition 8 (ACA 45) Fish and Game Commission. Provides staggered overlapping terms for commission members, eliminating political control of the commission and allowing continuity of experience and policies. Recommendation: "Yes."

Proposition 9 (SCA 36) Taxation of Vessels. The existing provision of the constitution has been interpreted to exempt only vessels of more than 50 tons burden, carrying goods for hire and not the many vessels carrying their own goods. There seems to be no valid reason for this distinction and its continuation would mean transfer of registration of many vessels to other states. Recommendation: "Yes."

Proposition 10 (ACA 79) Special Assessment Procedure. This amendment gives property owners in char-

confronted with the dilemma of staying over at their own expense, or going home and coming back at their own expense.

PRE-LEGISLATURE WORK
It is no simple job to make the physical preparations for a legislative session. Furniture must be taken out of storage, a thorough cleaning given offices and chambers, telephone facilities doubled and tripled, extra personnel hired, and any number of small matters handled. Expecting a leisurely advance job, everyone had to jump on the double quick when only two days remained for the special call.

tered cities and counties the same protection against unduly heavy assessments for improvements as is now afforded property owners in other areas of the state. Recommendation: "Yes."

Proposition 12 (ACA 2) Interim Committees of the Legislature. This amendment would enable fact finding committees of the legislature to function after adjournment of the legislature. With the increasing complexity of legislative problems, such committees can serve a useful function. Recommendation: "Yes."

Proposition 13 (SCA 33) Oil and Gas Rights in State Parks. This amendment authorizes the legislature to provide for sale or lease of state park lands for production of oil and gas, without obligation to use the proceeds for purchase of other lands for the state park system. The state chamber board believes that the state park system was established for the benefit of all citizens and should be protected from commercial exploitation. Recommendation: "No."

COUNTY MONIES
Proposition 14 (ACA 75) Apportionment of Monies for Local Purposes. Under present statutes monies returned to cities and counties from the in lieu automobile tax and alcoholic beverage tax may be used only for state purposes. This amendment provides that these revenues, which are frequently in excess of the needs for which they are specified, may be used for local general fund purposes, as may be subsequently provided for by the legislature. Recommendation: "Yes."

Proposition 15 (SCA 24) Transfers of Funds by City Treasurers. This amendment would unnecessarily prohibit temporary transfers by local treasurers from municipally owned public utility debt funds. Such transfers are now allowed from these and other special funds to meet general government needs during the lean periods before property tax revenues are received. Recommendation: "No."

Proposition 16 (SCA 29) Organization of the Legislature. This amendment provides for annual sessions of the legislature and for annual instead of biennial budgets for the state. The state chamber feels that in spite of some desirable features in the amendment, such as increased compensation for legislators, it contains many provisions which would not improve legislative procedure. Recommendation: "No."

Proposition 17 (ACA 42) Insurance for Public Officers. This amendment authorizes the legislature to permit purchase of insurance by state and local governments against personal liability of officers, agents, and employees, in connection with their work. The state chamber believes the language of the amendment is so broad as to open the door for purchase of all kinds of personal liability insurance with a resulting heavy tax burden on all government. Recommendation: "No."

NO RECOMMENDATIONS
No recommendations were made by the board on Proposition 3 (SCA 37) relating to state prisons; on Proposition 5 (Initiative) relating to daylight saving; and on Proposition 11 (ACA 71) relating to shares of stock in mutual water companies.

WHY WAIT

Why wait until the first chilly blasts of winter hit before you put in that new oil burning heater and supply of fuel oil? Call us for prices and you will be amazed at the low cost of clean, sanitary, satisfying oil heat.

SAFETY FIRST

Almost anyone can install electrical wiring and electrical apparatus so that they will work after a fashion. But to install them so that the greatest degree of safety will be assured, that their mechanical perfection will be realized and that the installation will be forever free from constant tinkering is another matter.

And that brings up the matter of doing electrical work in a "maybe-or-may-be-not" fashion by yourself or having it done by an expert electrician. Each year the National Board of Fire Underwriters add up thousands and thousands of dollars, needlessly destroyed by fire through well meaning but incompetent workmanship of amateur electricians. Is your home, your most valued possession, worth gambling against the few dollars charged by the master electrician or the chances of fire through amateurish workmanship?
